

Reviso d.o.o. opts for the following policy:

Orientation to the needs and expectations of the customer, speed and completeness of delivery, are the most important values according to which the overall success in the field of production is measured and determined.

In order to achieve, maintain and strengthen these values:

- we follow the trends in the production of cosmetic products, cleaning products and disinfection products, we effectively apply them during the development and production of products that meet all applicable regulatory requirements and customer requirements in terms of quality, safety and health;
- in order to achieve all of the above, specifications with clear requirements for each product were documented and procedures were established according to which the products are manufactured, equipped, controlled and put into circulation
- we maintain an efficient system of monitoring, assessment, communication and implementation of legislative changes
- we carry out production at the highest technological standards
- we employ staff who will have opportunities and obligations to constantly develop and improve
- we nurture and develop partnership relations with suppliers
- we realize solutions that fully support the demands and needs of the Customers
- we strive for balanced, long-term and profitable growth in accordance with the vision of sustainable development
- we apply and improve the effectiveness of the quality management system and product safety based on the requirements of the ISO 9001:2015 and IFS HPC standards, and strive to exceed the level of these requirements
- we set ourselves ambitious, measurable and achievable goals for product quality and safety
- we adequately manage our processes, we pay special attention to the protection and preservation of the environment, primarily through the reduction of harmful impacts and the rational use of natural resources
- we comply with all legislative requirements for safety at work and continuously develop a safe and appropriate working environment for our employees, as well as all visitors
- in order to ensure the required quality and safety of products and a safe working environment, we implement effective programs of regular maintenance, supervision and cleaning of plants, premises and equipment
- we regularly monitor the quality and product safety management system in order to timely recognize all opportunities for improvement wherever necessary
- we have ensured that the company and environmental protection policy is available to everyone, including all company employees
- we chose the FSC®CoC (Chain of Custody) standards and thus accepted the obligation to carry out the activities of the procurement process of FSC Mix and FSC Recycled materials (paper and cardboard), as well as the production and sale of FSC Mix and FSC Recycled wet wipes according to international standards, the main goal of which is ecologically responsible, socially beneficial and economically sustainable use of forest products. For production and sales, we use the unique license code (FSC-C148238) assigned to us.
- we are committed to supporting the core values of FSC® defined in document FSC -POL-01-004
- we act sustainably in the field of employee development and their human rights, environmental protection and recycling
- we continuously monitor energy consumption in all phases of the production and business process and set measurable goals for its reduction and more efficient use, taking into account the best available technologies and methods
- we systematically measure and analyze greenhouse gas emissions (GHG) generated in our operations and implement initiatives to reduce them through improving energy efficiency
- we rationally manage water in our production processes, as well as in office operations, through regular consumption controls and employee education on the importance of saving and preserving water resources

- we set and regularly review measurable goals related to energy consumption, greenhouse gas emissions and water use, and regularly evaluate the results achieved so that we can continuously improve our environmental impact and compliance with the principles of sustainable development
- we rationally manage raw materials and finished products, as well as the production process, making efforts to reduce the generation of waste

Reviso d.o.o. se opredjeljuje za sljedeću politiku:

Usmjerenost na potrebe i očekivanja Kupca, brzina i kompletnost isporuke, najvažnije su vrijednosti prema kojima se mjeri i određuje ukupnu uspješnost u području proizvodnje.

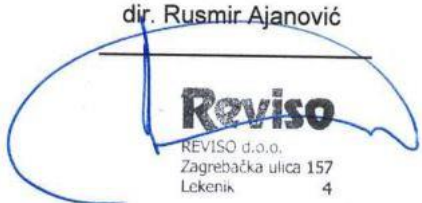

Da bismo postizali, održavali i osnaživali te vrijednosti:

- pratimo trendove u proizvodnji kozmetičkih proizvoda, proizvoda za čišćenje i proizvoda za dezinfekciju, efikasno ih primjenjujemo tijekom razvoja i proizvodnje proizvoda koji udovoljavaju svim primjenjivim regulatornim zahtjevima i zahtjevima kupaca u smislu kvalitete, sigurnosti i zdravstvene ispravnosti;
- kako bi se sve navedeno postiglo, dokumentirane su specifikacije s jasnim zahtjevima za svaki proizvod te uspostavljeni postupci prema kojima se proizvodi izrađuju, opremaju, kontroliraju i stavljaju u promet
- održavamo učinkovit sustav praćenja, procjene, komunikacije i implementacije legislativnih promjena
- proizvodnju ostvarujemo na najvišim tehnološkim standardima
- zapošljavamo osoblje koje će imati mogućnosti i obveze stalno se razvijati i usavršavati
- negujemo i razvijamo partnerske odnose s dobavljačima
- realiziramo rješenja koja u cijelosti podržavaju zahtjeve i potrebe Kupaca
- težimo uravnoteženom, dugoročnom i profitabilnom rastu u skladu s vizijom održivog razvoja
- primjenjujemo i poboljšavamo djelotvornost sustava upravljanja kvalitetom i sigurnosti proizvoda temeljenog na zahtjevima normi ISO 9001:2015 i IFS HPC te težimo nadilaženju razine tih zahtjeva
- postavljamo si ambiciozne, mjerljive i ostvarive ciljeve kvalitete i sigurnosti proizvoda
- adekvatno upravljamo našim procesima, posebnu pažnju pridajemo zaštiti i očuvanju okoliša, prvenstveno kroz smanjenje štetnih utjecaja i racionalnim korištenjem prirodnih resursa
- poštujemo sve legislativne zahtjeve sigurnosti na radu i kontinuirano razvijamo sigurno i primjereno radno okruženje za naše zaposlenike, kao i sve posjetitelje
- kako bi se osigurala zahtijevana kvaliteta i sigurnost proizvoda te sigurno radno okruženje, provodimo učinkovite programe redovitog održavanja, nadzora i čišćenja pogona, prostora i opreme
- sustav upravljanja kvalitetom i sigurnošću proizvoda redovito nadziremo kako bi se pravovremeno prepoznale sve prilike za poboljšanja gdje god je to potrebno
- osigurali smo da politika društva i zaštite okoliša bude dostupna svima, uključujući sve djelatnike tvrtke
- odabrali smo FSC®CoC (Chain of Custody) standarde i tako prihvatili obvezu obavljanja djelatnosti procesa nabave FSC Mix i FSC Recycled materijala (papira i kartona), te proizvodnju i prodaju FSC Mix i FSC Recycled vlažnih maramica po međunarodnim standardima čiji je osnovni cilj ekološki odgovorno, društveno korisno i ekonomski održivo korištenje proizvoda iz šuma. Pri proizvodnji i prodaji koristimo jedinstveni licencni kod (FSC-C148238) koji nam je dodjeljen.
- obvezali smo se podržavati temeljne vrijednosti FSC®-a definirane u dokumentu FSC-POL-01-004
- održivo djelujemo na području razvoja zaposlenika i njihovih ljudskih prava, očuvanja okoliša i reciklaže
- Kontinuirano pratimo potrošnju energije u svim fazama proizvodnog i poslovnog procesa te postavljamo mjerljive ciljeve za njezino smanjenje i učinkovitije korištenje, uzimajući u obzir najbolje dostupne tehnologije i metode.
- Sustavno mjerimo i analiziramo emisije stakleničkih plinova (GHG) koje nastaju u našem poslovanju te provodimo inicijative za njihovo smanjenje kroz poboljšanje energetske učinkovitosti.
- Racionalno upravljamo vodom u našim proizvodnim procesima, kao i u uredskom poslovanju kroz redovite kontrole potrošnje te edukaciju zaposlenika o važnosti štednje i očuvanja vodnih resursa.

- Postavljamo i redovito preispitujemo mjerljive ciljeve vezane uz potrošnju energije, emisije stakleničkih plinova i korištenje vode, te redovito procjenjujemo postignute rezultate kako bismo mogli kontinuirano poboljšavati naš utjecaj na okoliš i usklađenost s načelima održivog razvoja.
- Racionalno upravljamo sirovinama, repromaterijalima te gotovim proizvodima, kao i proizvodnim procesom, ulažući napore kako bismo smanjili nastajanje otpada.
